## PROGRAM HIGHLIGHTS

## Client Recieveables

**Quarterly Kick-Offs:** Begin each quarter on the right foot with our exclusive 2-hour seminars. These sessions set the tone for success and provide a roadmap for the quarter ahead. This unique approach allows us to build deeper relationships as a team, as Dr. Hamby gains a better understanding of the needs of your organization and its people, since training is done a little bit at a time, and over the course of the year. Implementation in this manner also allows for the cultivation of a learning culture, enhanced employee engagement and consistent positive reinforcement.

**Culture & Leadership Interviews:** Gain valuable insights with interviews conducted among selected staff. This "temperature check" allows us to understand the current organizational pulse and tailor our strategies accordingly.

**Real-Time Reports:** Stay informed throughout our 1-year partnership with real-time reports delivered to leadership. This transparency ensures that progress is continually aligned with organizational goals.

**Powerful Takeaways:** Each module of our program offers powerful takeaways, equipping your team with actionable strategies and tools to enhance both culture and leadership.
